Summary

I am a professional web frontend developer with expertise in creating visually appealing and user-friendly websites. I have a deep understanding of front-end technologies such as HTML, CSS, JavaScript, and frameworks like React and Angular. With my skills and experience, i am capable of developing responsive and cross-platform websites that can work seamlessly across different devices and platforms. My attention to detail and passion for delivering high-quality work sets you apart as a competent and reliable web developer. I am committed to staying up-to-date with the latest trends and technologies in the industry to keep enhancing my skills and delivering top-notch solutions to my clients.

Projects

Chatting Web App

I have developed a chatting app like Facebook. In this app, users can make friends and talk among themselves with text or voice messages and send pictures or videos. Also, users can create groups and chat with group members. In this app, users can upload their profile pictures, and also Users can block any friends, and also can unblock them.
